Education

Institution: Port City International University

Degree: BSC

Subject: Computer Science and Engineering (CSE)

About Me

I am Barsha Chowdhury, a passionate Computer Science & Engineering student with a strong drive for learning and building digital solutions. Having a solid foundation in core programming and web technologies, I enjoy the process of turning logic into functional code. Beyond technical skills, I am a proactive team player and a quick learner, always eager to adapt to new challenges and emerging technologies in the ever-evolving field of software development.

Extra-curricular-Activities

- Active Participant in University Programming Contests.
- Member of the University Computer Club.
- Volunteer for department-level tech events.

Projects

- Personal Portfolio Website
- Student Management System (Academic Project)
- Automated Library Management System (Group Project)

CAREER OBJECTIVE

Enthusiastic Computer Science and Engineering student with a strong foundation in problem-solving and a passion for software development. Quick learner with a basic understanding of coding principles and web development. Committed to expanding technical expertise and contributing to innovative projects in a collaborative environment.
